Experience

YouTube

2018 ~ 2026

YouTube TV 2020 ~ 2026

Design lead for Multiview, YouTube TV's #1 most requested feature, from inception through launch and continued iteration: a multiyear, cross-team, cross-product, and cross-functional effort. Launched alongside YouTube TV's exclusive NFL Sunday Ticket deal, Multiview changed how members watch TV and now accounts for a sustained double-digit percentage of all YouTube TV watch time.

Drove the design of YouTube TV's core experiences, such as the Library and Watch surfaces. Took a TV-first approach while designing holistically for the user's experience across these surfaces and across platforms.

Brought years of Identity expertise from YouTube Living Room to refresh and update the sign-in experience specifically for YouTube TV members.

YouTube Living Room (YTLR) 2018 ~ 2020

Owned the Identity space for YouTube on TV, defining how people sign in and get to their accounts on the biggest screen in the house.

Google

2017 ~ 2018

Google Photos

Spearheaded the design and launch of collages for Photo Books, the newest editing and creation feature of its time. A uniquely tangible project spanning both digital and physical prototyping, with every design decision carried through to printed hardcover and softcover books.

Internships

2014 ~ 2017

Signac	First and only designer; owned the UX and built the design system.
Uber	Improved the driver experience on the partner app.
Belle Apps	Designer and front-end dev for client iOS, Android, and web apps.
Ericsson	UX design and development for VR experiences (C#, Unity3D).
Facebook	iOS engineer in the inaugural FBU program.

Education

Cornell

2013 ~ 2017

B.A. Information Science *magna cum laude*
Business minor
(almost) Fine arts minor

Teaching assistant, lecturer, research assistant, mentor, photographer
